

Welcome to Leaf Season 2018!

Since we never know what Mother Nature has in store for us in terms of weather each year,

we try to make things as simple as possible for everybody. Here are a few guidelines

to help make this season run as smoothly as possible:

* PLEASE remember that we rotate our schedule every year, and that there are advantages to being picked up "early" or "late" in the schedule. If you are one of the first few wards scheduled for pick up you are virtually guaranteed at least a 2nd pass by the vacuum trucks. We KNOW many of your leaves may not have fallen yet, but we hope you'll get out what you can while the weather is still cooperating.

* If you have help with your leaves PLEASE make your landscapers aware of our schedule. Don't forget, they are working for you.

* Once we have made one complete pass through the town, we will begin again at the top of the schedule. PLEASE assume that this will be the LAST pass for the vacuum trucks. We may POSSIBLY return if weather permits, but we can make no promises.

As always, leaf bags will be available here at the Highway Office on the day after COLUMBUS DAY,

Tues., Oct. 9th this year.

The bag truck will continue to circulate through the town through December; as soon as you fill bags, put them out!

Have a safe and healthy autumn.
