Have any permits affecting the property been issued by any other governmental agency?

No Yes . If yes, please list in detail (attach separate pages if necessary):

Has any application(s) for any other permit(s) for any activity affecting the property been submitted to any other governmental agency? No Yes . If yes, please list in detail (attach separate pages if necessary):

Attach a copy of the current deed and any easements affecting the property.

A) For Interpretation Applications:

Description of Reason for the Requested Interpretation: (Attach additional pages as necessary)

B) For Area Variance Applications:

Provide a description of the proposed activity with regard to the following standards. (Attach additional pages as necessary)

- 1) Whether an undesirable change will be produced in the character of the neighborhood, or a detriment to nearby properties will be created by the granting of the area variance;

We studied a few options and we fell the planned design is in the vanacular style of the neighborhood and will enhance the neighborhood.

- 2) Whether the benefit sought by the applicant can be achieved by some method, feasible for the applicant to pursue, other than an area variance;

No, the septic fields are located in the rear yard and there is a finished walk-out basement in the rear (West) side of the residence. Given the masonry patio with full foundation below was alrely present it made sense from a finacial standpoint to plan the addition to replace the patio which is no longer used.

- 3) Whether the requested area variance is substantial;

The planned addition is to be constructed on top of the existing North Patio foundation walls and the addition on the rear (West) side is to stay in alignment with the North most wall and the request of 3'-8" is necessary from the design intent.

- 4) Whether the proposed variance will have an adverse effect or impact on the physical or environment conditions in the neighborhood or district.

The design will have little to no effect on the existing site conditions forwe are looking to use the existing foundation below the North Patio.

- 5) Whether the alleged difficulty was self-created, which consideration shall be relevant to the decision of the Board of Appeals, but shall not necessarily preclude the granting of the area variance.

The design of the addition was planned to be constructed on top of the existing North patio which was constructed in circa 1958 and the addition off the rear (west) is in alignment of the North wall so not to encroach on the setback any further.
